ABOUT ME

An enthusiastic student that is interested in programming and technology looking to gain experience and learn more about the tech industry.

EDUCATION/COURSEWORK

University of Central Florida - *Sophomore, B.S. Computer Science; Class of 2020*

Major coursework completed (so far) in C programming, Object-Oriented Programming with Java, Data Structures and Algorithms, and Discrete Mathematics.

GPA: 3.54/4.0; Major GPA: 4.0/4.0

SKILLS

- Proficient in C, C++ (and STL), Java; familiar with Python
- Proficient in Bash shell usage
- Familiar with Git usage
- Basic HTML, CSS, and Javascript (and various JS libraries)
- Very familiar with Linux, MacOS, and Windows operating systems
- Basic knowledge in AI (mainly neural networks)
- Proficient in computer troubleshooting and hardware-related skills
- Well-versed in problem-solving, critical thinking and algorithms

EXTRACURRICULARS

Hackathons

- Microsoft HackKnight 2016 at University of Central Florida
 - Used the Reddit API on Python to create a Reddit bot that lets commenters request lyrics from the LyricWiki using the LyricWiki API.
- Major League Hacking: HackFSU 2017 at Florida State University
 - Created a real-time chat webapp using Node.js.

UCF Programming Team

- Regularly attended practices with the UCF Programming Team

ACM SIGAI at UCF - Association of Computing Machinery, AI Interest Group

- Member of the UCF chapter of ACM's AI special interest group
- Regularly attended lectures, workshops on Artificial Intelligence and Neural Networks

Hack@UCF

- Member of Hack@UCF, an organization which specializes in computer and network security
- Attended lectures and workshops on computer and network security

AWARDS

UCF President's Honor Roll (4.0 GPA) - 2017

Advanced Placement (AP) Scholar with Honors - 2016
